

## **UConn Physics Graduate Teaching Mentoring Program**

Advanced PhD students in the dissertation writing phase of their degree program may apply for a one semester teaching position, under the mentoring of a physics faculty member. This is an excellent opportunity for students who are interested in a teaching career to gain valuable experience teaching an undergraduate physics course.

Interested students should apply by sending to the Physics Department Head:

(I) their CV

(II) a statement of their teaching experience, plans and philosophy

and arrange for one letter of recommendation to be sent to the Department Head.

Complete applications should be received by the end of Fall (Spring) semester for teaching in the following year's Fall (Spring) semester.
