- 1. As far as computers are concerned, I am a primary user of
 - □ Windows
 - □ Mac
 - □ Linux
 - ☐ Chrome OS
 - □ Other (please specify): _____
- 2. How many programming languages do you know?

Since the concept of knowing a programming language is rather vague, let's be more specific. For the purpose of this questionnaire, we consider that someone knows a language if they can implement the following algorithm using that language:

Consider the following Monte Carlo algorithm for calculating of Euler-Mascheroni constant (Euler–Mascheroni constant (aka Euler constant) $\gamma \approx 0.57$, is, next to π and e, one of the most important mathematical constants):

- 1. Generate uniformly distributed on (0,1] random numbers u.
- 2. Calculate

$$w = 1 - \left\{ \frac{1}{u} \right\},\tag{1}$$

where $\{x\}$ denotes the fractional part of x.

3. Repeat steps 1. and 2. n times and calculate the average of w_i .

$$\bar{w}(n) = \frac{1}{n} \sum_{i=1}^{n} w_i.$$
 (2)

The average value $\bar{w}(n)$ approaches the value of Euler constant as n grows bigger and bigger.

- □ I am going to learn my first programming language in PHYS 2200
- □ One
- □ Two or more

3.	Are you taking another class that requires you to use a GitHub account?
	☐ Yes (please specify if more than one class:)
	□ No
	□ Not sure
4.	Chose one statement below that best describe your attitude toward PHYS 2200.
4.	Chose one statement below that best describe your attitude toward PHYS 2200. $\hfill\Box$ I just need a class to graduate
4.	·
